

Pre-Qualification Form
Maryland Windswept Grant Program

Please answer all of the following questions, sign and submit this form and the required supporting documentation with the appropriate **Windswept Application Form**.

Applicant Name: _____

Address: _____

Local Covenants:

Understanding of local and county covenants such as those required by a homeowners association or historic district is important.

Is there an approval process necessary to install a wind energy system on your property?

If so, has the project been approved by the appropriate entity?
Please provide a copy of the approval documents.

Local Codes:

Has the local codes authority been notified of your project?

Do you plan on pulling permits and having the completed project inspected by the local codes authority?

Net Metering:

Qualifying utility interconnected projects must meet the requirements of Maryland's Net Metering Law.

Do you plan to notify the local electric utility about your project at least 30 days prior to installation?

Grant Program Requirements and Procedures:

Have you reviewed and become familiar with the relevant grant program requirements and procedures as presented in the Windswept Grant Program Application Package dated October 2007?

Will you be moving in the near future?

If so, will the wind energy system remain in service in the State of Maryland?

Program Promotional Information:

How did you learn about the Windswept Grant Program?

Applicant's Signature

I intend to install a wind energy system on my property. I affirm under penalties of perjury that I own the property for which I am applying, and the contents of the foregoing pre-qualification form are true to the best of my knowledge, information, and belief.

Signed _____ Date: _____
